Deboraj Sarkar

Debotaro

Digital Designer | AI-Assisted Product Design & Development

Kokrajhar, Assam, India | mail.deborajsarkar@gmail.com
debotaro.github.io | github.com/Debotaro | linkedin.com/in/deborajsarkar

PROFILE

Digital designer with paid graphic design experience and a focus on visual interfaces, responsive web design and working digital products. Combines product direction and visual review with AI-assisted implementation.

SKILLS

Design: Visual and graphic design, UI/interface design, Figma, responsive layout, product requirements, design review and iteration.

Project tools: React, TypeScript, Git/GitHub and Codex in AI-assisted workflows.

EXPERIENCE

Graphic Designer | Wecanstore.com June 2022 - July 2023

- Created banners, social media graphics and marketing materials.
- Refined visual assets using team feedback.

FLAGSHIP PROJECT

Debotaro Studio

Independent portfolio project | 2026

- Defined product direction, audience, requirements and visual goals for a visual application builder focused on fictional customer-support workspaces.
- Developed the implementation with Codex through documented contracts, review and executable checks. The local prototype supports responsive editing, shared tokens, a documented React/TypeScript round trip, collaboration and independent export.
- At the 14 October 2026 technical checkpoint, 236 automated tests and 19 production browser tests passed. A generated React app was installed, built and exercised independently.

Local prototype with fictional data; live model inference remains unverified.

Source and local setup | Case study

EDUCATION

Bachelor's degree in Computer Science, in progress

University of the People | June 2025 - present

SELECTED CERTIFICATES

Google UX Design Professional Certificate
Google / Coursera | November 2023

IBM DevOps, Cloud, and Agile Foundations Specialization
IBM / Coursera | April 2023
